

*Final Terms dated 7 August 2020
BrokerCreditService Structured Products plc*

(incorporated in The Republic of Cyprus)

(the "Issuer")

Issue of Series 109 RUB 600,000,000 Share Linked Notes (Autocall Standard Notes with Snowball Digital Coupon) due 2025

under the EUR 10,000,000,000 Euro Medium Term Note Programme (the "Programme")

Any person making or intending to make an offer of the Notes may only do so in circumstances in which no obligation arises for the Issuer or the Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or to supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer.

Neither the Issuer nor the Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

MiFID II product governance / Retail investors, professional investors and ECPs target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, portfolio management, non-advised sales and pure execution services - subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

PART A - CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth under the sections entitled "*Terms and Conditions of the Notes*", "*Annex 1 - Additional Terms and Conditions for Payouts*" and "*Annex 3 - Additional Terms and Conditions for Share Linked Notes*" in the Base Prospectus dated 6 July 2020 which constitutes a base prospectus for the purposes of the Prospectus Regulation (the "**Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of the Prospectus Regulation, and must be read in conjunction with the Base Prospectus in order to obtain all the relevant information.

Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus and these Final Terms (in each case, together with any documents incorporated therein by reference) are available for viewing at, and copies may be obtained from, Citibank, N.A., London Branch (in its capacity as Fiscal Agent). The Base Prospectus will also be available on the website of Euronext Dublin (www.isc.ie) and these Final Terms will be available for viewing on the website of Euronext Dublin. A copy of these Final Terms and the Base Prospectus will be sent free of charge by the Issuer to any investor requesting such documents. A summary of the Notes is annexed to these Final Terms.

The Base Prospectus and these Final Terms are available for viewing at, and copies may be obtained from, the Fiscal Agent.

The expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

What are the key risks that are specific to the Issuer?

Credit risk

As part of its trading operations, the Issuer enters into loans, OTC derivatives, securities lending transactions and other financial transactions with a number of counterparties. Credit risk is the risk of loss that the Issuer may incur as a result of borrowers or other counterparties of the Issuer defaulting on their payment obligations in respect of such transactions, including the risks attaching to the Issuer's customers having financial difficulties and risks relating to large exposures, which could impact the Issuer's ability to meet its obligations under the Notes.

Market risk

The Issuer faces market risks as an inherent part of its business. The Issuer's market risk relates to the risk of loss that the Issuer may incur because of adverse developments in market values resulting from fluctuations in interest rates, credit spreads, foreign currency exchange rates and equity and commodity prices. The performance of financial markets may cause changes in the value of the Issuer's investment and trading books which may adversely affect the Issuer's financial position, including reducing its revenue which, in turn, could prevent the Issuer from fulfilling its payment obligations under the Notes.

Liquidity risk

The Issuer is subject to liquidity risk, being the risk that a lack of funding prevents the Issuer from being able to finance its activities (i.e. to ensure the growth of its assets or perform its obligations as they fall due). The Issuer is subject to the following types of liquidity risk:

- i. physical liquidity risk, being the risk of default by the Issuer on its liabilities to counterparties in any currency because of a shortage of cash or non-cash funds; and
- ii. structural liquidity risk (i.e. concentration risk), being the risk of a significant deterioration of the Issuer's physical or regulatory liquidity due to an imbalance in the Issuer's asset and liability structure, which arises from a mismatch between the maturity of the Issuer's assets and liabilities. Although an unmatched position potentially enhances profitability, it can also increase the risk of losses for the Issuer.

If the Issuer is unable to finance its activities due to a lack of liquidity, this could lead creditors to form a negative view of Issuer's liquidity. This could result in higher borrowing costs and decreased access to various funding sources for the Issuer, which, in turn, could have an adverse effect on the Issuer's business, results of operations, financial position or prospects.

Insolvency risks under Cypriot law

The insolvency proceedings to which the Issuer could be subject to in Cyprus are (i) receivership, (ii) administration and (iii) winding up (a) by the court, (b) voluntarily by its shareholders or creditors or (c) subject to the supervision of the court. As the Notes are unsecured obligations, in the event of the insolvency of the Issuer, Noteholders would be unsecured creditors of the Issuer (and each Noteholder would rank *pari passu* with each other) and, depending on the size of the insolvency proceeds recovered following such insolvency, each Noteholder may receive less than it would have expected to receive under the Notes (and this may be less than its initial investment).

Risk factor relating to the ultimate shareholder of the Issuer

The ultimate shareholder owning and controlling the Issuer is Oleg Mikhasenko, who is the sole ultimate beneficial owner of the Group. The Issuer does not have any specific measures in place to ensure that this position of control is not abused. If such position of control is abused, this could have a material adverse effect on the Issuer's financial condition, results of operations and future prospects which may, in turn, result in the Issuer being unable to fulfil its obligation to Noteholders under the Notes.

Risks factors relating to the Russian Federation

Economic, political and legal uncertainty in Russia could have a material adverse effect on the Issuer. A significant proportion of the Issuer's revenue is derived from Russian investors and, as such, a large number of the Issuer's counterparties are based in Russia. Instability in Russia (as further described in more detail in the risk factors below) could seriously impact Russian counterparties' ability to invest which could lead to a reduction in the Issuer's revenue. Any such reduction in revenue could potentially affect the Issuer's ability to make payments to Noteholders under the Notes in part or in full.

Rights attached the Securities:

Status of the Notes

The Notes constitute unsubordinated and unsecured obligations of the Issuer. The Notes constitute direct, general and unconditional obligations of the Issuer which rank at least *pari passu* with all other present and future unsecured obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

Events of Default

The terms of the Notes contain events of default including non-payment, non-performance or non-observance of the Issuer's obligations in respect of the Notes and the insolvency or winding up of the Issuer.

Meetings

The terms of the Notes contain provisions for calling meetings of holders of such Notes to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders,

including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Taxation

All payments in respect of Notes will be made free and clear of withholding taxes of the Republic of Cyprus, as the case may be, unless the withholding is required by any law and/or regulation.

Governing law

The Notes, the Agency Agreement (as amended or supplemented from time to time) and the Deed of Covenant and any non-contractual obligations arising out of or in connection with the Agency Agreement (as amended or supplemented from time to time) and the Deed of Covenant are governed by, and shall be construed in accordance with English law.

Interest

The Notes pay interest determined by reference to the Shares. Interest, if any, will be payable on the Interest Period End Dates as the Interest Payment Dates for the Notes.

The Notes bear or pay interest on the basis of a "Snowball Digital Coupon Condition" with a memory effect. Any interest not paid in respect of a period may be paid at a later date if certain conditions are met.

In summary, if the Reference Value of the Worst Performing Share (the "**Worst Value**") in respect of an Interest Valuation Date is greater than or equal to 70%, Noteholders will receive an interest payment on the related interest payment date equal to (A) the Specified Denomination *multiplied by* (B) 3.75% per Interest Period. Noteholders will also receive on such interest payment date the sum of all unpaid interest amounts in respect of any previous interest payments at such rate. However, if the Reference Value of the Worst Performing Share in respect of such Interest Valuation Date is less than 70%, no interest amount is payable on such interest payment date.

Where:

"Closing Value" means the value of a Share at the close of trading on the relevant exchange in respect of a given trading day;

"Initial Value" means the Closing Value in respect of a Share in respect of the Strike Date;

"Interest Period" means each period from (and including) an Interest Period End Date (or the Issue Date in the case of the first Interest Period) to (but excluding) the next following Interest Period End Date (or the Maturity Date in the case of the last Interest Period);

"Interest Period End Date" means 8 March, 8 June, 8 September and 8 December in each year, commencing on 8 December 2020 up to and including the Maturity Date;

"Interest Valuation Date" 1 March, 1 June, 1 September and 1 December in each year, commencing on 1 December 2020 up to and including 1 December 2025 (or, if any such day is not a scheduled trading day for a Share, the next following scheduled trading day);

"Reference Value" means the Closing Value in respect of a Share in respect of a relevant valuation date *divided by* the Initial Value in respect of such Share, expressed as a percentage;

"Strike Date" means 8 September 2020;

"Specified Denomination" means RUB 100,000; and

"Worst Performing Share" means the Share with the lowest Reference Value in respect of a relevant Interest Valuation Date.

Early Redemption

The Notes may be redeemed early for tax reasons at the early redemption amount calculated in accordance with the terms and conditions of the Notes. In addition, the Notes may be redeemed early following an automatic early redemption (see "*Automatic Early Redemption*" below).

The Notes may also be cancelled or redeemed early following the occurrence of certain disruption, adjustment, extraordinary or other events in relation to the Shares.

Automatic Early Redemption

If the Reference Value in respect of the Worst Performing Share in respect of an Automatic Early Redemption Valuation Date is greater than or equal to Automatic Early Redemption Price, the Notes will be automatically redeemed at 130% of par.

"**Automatic Early Redemption Valuation Date**" means each Interest Valuation Date (except for the Interest Valuation Date scheduled to fall on 1 December 2025).

Final Redemption – Notes

Each Note will be redeemed by the Issuer on the Maturity Date (unless previously redeemed or purchased and cancelled) at the Final Redemption Amount for Autocall Standard Notes.

In summary, if the Reference Value of the Worst Performing Share in respect of the last Interest Valuation Date is greater than or equal to 70%, the Notes will be redeemed at par. If the Reference Value in respect of the Worst Performing Share in respect of the last Interest Valuation Date is less than 70% (representing a decline of more than 70% from the Closing Value of such Worst Performing Share as of the Strike Date), Noteholders will receive a final redemption amount in USD equal to (A) the Specified Denomination multiplied by (B) the Reference Value in respect of the Worst Performing Share in respect of the last Interest Valuation Date (which shall be the Knock-in Determination Day and the SPS Redemption Valuation Date), with the result that the nominal amount invested by a Noteholder will be lost at a rate of 1% for every 1% that the Closing Value of such Worst Performing Share in respect of the last Interest Valuation Date is below the Initial Value of such Worst Performing Share.

Restrictions on free transferability of the securities:

The Notes will be freely transferable, subject to the offering and selling restrictions in the Russian Federation, the Republic of Cyprus and under the Prospectus Regulation and the laws of any jurisdiction in which the relevant Notes are offered or sold.

Where will the securities be traded?

Application has been made for the Notes to be admitted to the official list (the "**Official List**") of Euronext Dublin and to trading on its regulated market (the "**Regulated Market of Euronext Dublin**").

What are the key risks that are specific to the Notes?

In addition to the risks relating to the Issuer (including default risk) that may affect the Issuer's ability to fulfil its obligations under the Notes, there are certain factors which are material for the purposes of assessing the market risks associated with Notes, including that (i) the Notes are unsecured obligations, (ii) the trading market for the Notes may be volatile and may be adversely impacted by many events, (iii) an active secondary market may never be established or may be illiquid and that this may adversely affect the value at which an investor may sell its Notes (investors may suffer a partial or total loss of the amount of their investment), (iv) the trading price of the Notes is affected by a number of factors including, but not limited to, the price of the Shares and volatility and such factors mean that the trading price of the Notes may be below the Final Redemption Amount, (v) exposure to the Shares may be achieved by the Issuer entering into hedging arrangements and investors are exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Notes, (vi) the occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Notes, or early redemption or may result in the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the

value or liquidity of the Notes, and (vii) the meetings of Noteholders provisions permit defined majorities to bind all Noteholders.

In addition, there are specific risks in relation to Notes which are linked to a basket of Shares and an investment in such Notes will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to share linked Notes include similar market risks to a direct equity investment, potential adjustment events or extraordinary events affecting the shares and market disruption or failure to open of an exchange which may have an adverse effect on the value and liquidity of the Shares.

In certain circumstances Noteholders may lose the entire value of their investment.

KEY INFORMATION ON THE OFFER OF THE NOTES TO THE PUBLIC AND THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this security?

The Notes are offered by way of private placement. This is not a public offer and the Issuer does not consent to the use of this Final Terms in connection with any public offer of the Notes.
