Date and time of production:	17 July 2020

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type	English law governed Notes
Objectives (Terms that appear in bold in this section are described in more detail below)	To provide interest payments, linked to the performance of the worst performing Share in the basket in respect of each Interest Valuation Date . Provided that the product is not redeemed early, the redemption amount shall be an amount equal to the Specified Denomination . Interest Amount (including memory feature): If the Reference Value in respect of the Worst Performing Share in respect of an Interest Valuation Date is greater than or equal to 100%, you will receive on the immediately following Interest Payment Date an Interest Amount in the Product Currency equal to (A) the Specified Denomination multiplied by (B) (i) in respect of the first Interest Period , 1.00% or (ii) in respect of each other Interest Period , 10.00% multiplied by (C) the number of calendar days in the relevant Interest Period divided by (D) 365 (or 366 in a leap year), subject to any minor discrepancies due to rounding, You will also receive on such Interest Payment Date the sum of all unpaid Interest Amounts in respect of any previous Interest Payment Dates . However, if the Reference Value in respect of the Worst Performing Share in respect of such Interest Valuation Date is less than 100%, no Interest Amount is payable on such Interest Payment Date .

You should note that the **Reference Value** of the **Worst Performing Share** in respect of the first **Interest Valuation Date** (such date scheduled to fall on the Strike Date) shall always be equal to 100%. Therefore (unless the product has been previously redeemed or purchased and cancelled), you can expect to receive a fixed **Interest Amount** on the first **Interest Payment Date** equal to the amount specified in the above paragraph in respect of the first **Interest Period**.

Redemption on the maturity date: Provided that the product has not been redeemed early or purchased and cancelled), you will receive a redemption amount on the **Maturity Date** equal to the **Specified Denomination**.

All determinations and observations will be made by the **Calculation Agent**. All dates may be subject to adjustment for non-business days and market disruption events.

The terms of the product provide that if certain defined events, in addition to those described above, occur (principally but not exclusively in relation to any **Share** or the PRIIP Manufacturer of the product) adjustments may be made to the terms of the product to account for the relevant event or the product may be early redeemed. The amount paid on any early redemption may be less than the amount an investor would expect to receive if it held the product to the **Maturity Date**.

Issue Date	14 July 2020	Specified Denomination	RUB 100,000
Product Currency	Russian Roubles ("RUB")	Issue Price	100 per cent.
Interest Period	Each period from (and including) an Interest Period End Date (or the Issue Date in the case of the first Interest Period) to (but excluding) the next following Interest Period End Date (or the Maturity Date in the case of the last Interest Period). Intended retail investor

The product is intended to be offered to retail investors who fulfil all of the criteria below:

1. they have a horizon consistent with the terms of this product;
2. they are willing and able to bear a potentially total loss;
3. they are willing to accept a level of risk consistent with the summary risk indicator below; and
4. they are expressing a view on the underlying(s) consistent with the conditions for a positive outcome (as set out in the product description above).

as determined independently or on the basis of professional advice.

2. What are the risks and what could I get in return?

Risk indicator

Lower Risk Higher Risk

The risk indicator assumes you keep the product for until the Maturity Date. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk: If the currency of your account is different to the currency of this product, you will be exposed to the risk of suffering a loss as a result of the conversion of the currency of the product into the account currency. This risk is not considered in the indicator shown above.

You are entitled to receive back at least 100% all of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain. If the issuer is not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios

Investment: RUB 1,000,000		1 year	2 years	Until maturity (Recommended holding period)
Stress scenario	What you might get back after costs	RUB 910,782.37	RUB 954,961.99	RUB 1,001,287.67
	Average return each year	-8.92%	-2.28%	0.04%
Unfavourable scenario	What you might get back after costs	RUB 912,597.23	RUB 954,961.99	RUB 1,001,287.67
	Average return each year	-8.74%	-2.28%	0.04%
Moderate scenario	What you might get back after costs	RUB 931,143.99	RUB 958,520.15	RUB 1,001,287.67
	Average return each year	-6.89%	-2.10%	0.04%
Favourable scenario	What you might get back after costs	RUB 1,032,243.37	RUB 1,129,110.17	RUB 1,251,287.67
	Average return each year	3.22%	6.26%	7.76%

This table shows the money you could get back over the term of the product (i.e. until maturity) under different scenarios, assuming that you invest RUB 1,000,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

This product may not be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before maturity. You will either be unable to cash in early or make a large loss if you do so.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. This product may not be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before maturity. You will either be unable to cash in early or make a large loss if you do so.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if the manufacturer is unable to pay out?

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for one holding period. They include potential early exit penalties. The figures assume you invest RUB 1,000,000. The figures are estimates and may change in the future.

Costs over time	Investment: RUB [●]	
	Scenarios	If you cash in at the end of the recommended holding period
Total costs		RUB 22,462.82
Impact on return (RIY) per year		0.71%

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario. Disregarding the impact on your return in that scenario, the estimated entry and exit costs are estimated to be RUB 22,462.82 if you cash in after the recommended holding period.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.			
One-off costs	<i>Entry costs</i>	[0.00%]	The impact of the costs already included in the price.
	<i>Exit costs</i>	[0.00%]	The impact of the costs of exiting your investment when it matures.
Recurring costs	<i>Portfolio transaction costs</i>	[0.00%]	
	<i>Other ongoing costs</i>	[0.00%]	
Incidental costs	<i>Performance fees</i>	[0.00%]	
	<i>Carried interests</i>	[0.00%]	

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product is estimated to be as follows: entry costs: RUB [●] and exit costs: RUB [0.00].

5. How long should I hold it and can I take money out early?

Recommended holding period: Until Maturity

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 31 August 2023 (i.e. maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is listed) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Listed	Smallest tradable unit	1 unit
------------------	--------	------------------------	--------

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person. Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: BrokerCreditService Structured Products PLC, Agia Zoni Street, 12, AGIA ZONI CENTER, Flat/Office 103, 3027 Limassol, Cyprus, by email to: info@bcs-sp.com or at the following website: <http://bcs-sp.com/>.

7. Other relevant information

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Citibank, N.A., London Branch. The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The offering of this product has not been registered under the U.S. Securities Act of 1933. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.
