

*Final Terms dated 22 September 2020
BrokerCreditService Structured Products plc*

(incorporated in The Republic of Cyprus)

(the "Issuer")

Issue of Series 118 USD 10,000,000 Credit Linked Notes due 2025

under the EUR 10,000,000,000 Euro Medium Term Note Programme (the "Programme")

Any person making or intending to make an offer of the Notes may only do so in circumstances in which no obligation arises for the Issuer or the Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or to supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer.

Neither the Issuer nor the Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

MiFID II product governance / Retail investors, professional investors and ECPs target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients each as defined in Directive 2014/65/EU (as amended, "MiFID II"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, portfolio management, non-advised sales and pure execution services - subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

PART A - CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth under the sections entitled "*Terms and Conditions of the Notes*" and "*Annex 6 - Additional Terms and Conditions for Credit Linked Notes*" in the Base Prospectus dated 6 July 2020 which constitutes a base prospectus for the purposes of the Prospectus Regulation (the "**Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of the Prospectus Regulation, and must be read in conjunction with the Base Prospectus in order to obtain all the relevant information.

Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus and these Final Terms (in each case, together with any documents incorporated therein by reference) are available for viewing at, and copies may be obtained from, Citibank, N.A., London Branch (in its capacity as Fiscal Agent). The Base Prospectus will also be available on the website of Euronext Dublin (www.ise.ie) and these Final Terms will be available for viewing on the website of Euronext Dublin. A copy of these Final Terms and the Base Prospectus will be sent free of charge by the Issuer to any investor requesting such documents. A summary of the Notes is annexed to these Final Terms.

The Base Prospectus and these Final Terms are available for viewing at, and copies may be obtained from, the Fiscal Agent.

The expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

What are the key risks that are specific to the Issuer?

Credit risk

As part of its trading operations, the Issuer enters into loans, OTC derivatives, securities lending transactions and other financial transactions with a number of counterparties. Credit risk is the risk of loss that the Issuer may incur as a result of borrowers or other counterparties of the Issuer defaulting on their payment obligations in respect of such transactions, including the risks attaching to the Issuer's customers having financial difficulties and risks relating to large exposures, which could impact the Issuer's ability to meet its obligations under the Notes.

Market risk

The Issuer faces market risks as an inherent part of its business. The Issuer's market risk relates to the risk of loss that the Issuer may incur because of adverse developments in market values resulting from fluctuations in interest rates, credit spreads, foreign currency exchange rates and equity and commodity prices. The performance of financial markets may cause changes in the value of the Issuer's investment and trading books which may adversely affect the Issuer's financial position, including reducing its revenue which, in turn, could prevent the Issuer from fulfilling its payment obligations under the Notes.

Liquidity risk

The Issuer is subject to liquidity risk, being the risk that a lack of funding prevents the Issuer from being able to finance its activities (i.e. to ensure the growth of its assets or perform its obligations as they fall due). The Issuer is subject to the following types of liquidity risk:

- i. physical liquidity risk, being the risk of default by the Issuer on its liabilities to counterparties in any currency because of a shortage of cash or non-cash funds; and
- ii. structural liquidity risk (i.e. concentration risk), being the risk of a significant deterioration of the Issuer's physical or regulatory liquidity due to an imbalance in the Issuer's asset and liability structure, which arises from a mismatch between the maturity of the Issuer's assets and liabilities. Although an unmatched position potentially enhances profitability, it can also increase the risk of losses for the Issuer.

If the Issuer is unable to finance its activities due to a lack of liquidity, this could lead creditors to form a negative view of Issuer's liquidity. This could result in higher borrowing costs and decreased access to various funding sources for the Issuer, which, in turn, could have an adverse effect on the Issuer's business, results of operations, financial position or prospects.

Insolvency risks under Cypriot law

The insolvency proceedings to which the Issuer could be subject to in Cyprus are (i) receivership, (ii) administration and (iii) winding up (a) by the court, (b) voluntarily by its shareholders or creditors or (c) subject to the supervision of the court. As the Notes are unsecured obligations, in the event of the insolvency of the Issuer, Noteholders would be unsecured creditors of the Issuer (and each Noteholder would rank *pari passu* with each other) and, depending on the size of the insolvency proceeds recovered following such insolvency, each Noteholder may receive less than it would have expected to receive under the Notes (and this may be less than its initial investment).

Risk factor relating to the ultimate shareholder of the Issuer

The ultimate shareholder owning and controlling the Issuer is Oleg Mikhasenko, who is the sole ultimate beneficial owner of the Group. The Issuer does not have any specific measures in place to ensure that this position of control is not abused. If such position of control is abused, this could have a material adverse effect on the Issuer's financial condition, results of operations and future prospects which may, in turn, result in the Issuer being unable to fulfil its obligation to Noteholders under the Notes.

Risks factors relating to the Russian Federation

Economic, political and legal uncertainty in Russia could have a material adverse effect on the Issuer. A significant proportion of the Issuer's revenue is derived from Russian investors and, as such, a large number of the Issuer's counterparties are based in Russia. Instability in Russia (as further described in more detail in the risk factors below) could seriously impact Russian counterparties' ability to invest which could lead to a reduction in the Issuer's revenue. Any such reduction in revenue could potentially affect the Issuer's ability to make payments to Noteholders under the Notes in part or in full.

Status of the Notes

The Notes constitute unsubordinated and unsecured obligations of the Issuer. The Notes constitute direct, general and unconditional obligations of the Issuer which rank at least *pari passu* with all other present and future unsecured obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

Events of Default

The terms of the Notes contain events of default including non-payment, non-performance or non-observance of the Issuer's obligations in respect of the Notes and the insolvency or winding up of the Issuer.

Meetings

The terms of the Notes contain provisions for calling meetings of holders of such Notes to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Taxation

All payments in respect of Notes will be made free and clear of withholding taxes of the Republic of Cyprus, as the case may be, unless the withholding is required by any law and/or regulation.

Governing law

The Notes, the Agency Agreement (as amended or supplemented from time to time) and the Deed of Covenant and any non-contractual obligations arising out of or in connection with the Agency Agreement (as amended or supplemented from time to time) and the Deed of Covenant are governed by, and shall be construed in accordance with English law.

Credit Linked Notes

The Notes are linked to the creditworthiness of six Reference Entities. By investing in the Notes an investor is hoping to receive a return in respect of each Note in the form of (1) a fixed rate interest amount on each Interest Payment Date (as defined below); and (2) a return of the outstanding principal amount of such Note on the Maturity Date, provided in each case that no credit event has occurred in respect of any of the Reference Entities. If a credit event occurs in respect of any of the Reference Entities, the payments a noteholder receives under the Notes (both in respect of interest amounts and the final redemption amount) will be lower and may be zero. The occurrence of a credit event will be determined by a committee established by the International Swaps and Derivatives Association ("ISDA") or by BrokerCreditService (Cyprus) Limited as calculation agent. Such credit events could include (depending on the Reference Entity) any of the following: Bankruptcy, Failure to Pay, Repudiation/Moratorium, Obligation Acceleration and/or Restructuring.

Interest

The Notes pay a fixed interest rate of 5% per annum. On each Interest Payment Date, absent the occurrence of a credit event, Noteholders will receive an interest amount equal to (A) the Specified Denomination multiplied by (B) 5% multiplied by (C) the quotient of (i) the number of calendar days in the relevant Interest Period *divided by* (ii) 365, subject to any minor discrepancies due to rounding.

Where:

"Interest Payment Date" means each Interest Period End Date.

"Interest Period" means each period from (and including) an Interest Period End Date (or the Interest Commencement Date in the case of the first Interest Period) to (but excluding) the next following Interest Period End Date.

"Interest Period End Date" means 30 December and 30 June in each year, commencing on 30 December 2020 up to and including the Maturity Date.

"Specified Denomination" means USD 1,250.

Early Redemption

The Notes may be redeemed early for tax reasons at the early redemption amount calculated in accordance with the terms and conditions of the Notes.

Redemption following a credit event

If a credit event occurs in respect of any one of the Reference Entities, the Notes will be redeemed on the auction settlement date (being three business days after the date on which the Issuer notifies the Calculation Agent and Noteholders of the auction settlement amount), On the auction settlement date, a Noteholder will receive per Note an amount equal to such Note's pro rata share of the greater of (A) zero; and (B) (i) the product of (1) the aggregate principal amount outstanding of Notes; *multiplied by* (2) the auction final price of an obligation of the defaulted Reference Entity; *minus* (ii) unwind costs.

The auction final price is determined by reference to a credit derivatives auction sponsored by ISDA. The auction will involve a bidding process by institutions participating in the relevant auction pursuant to a bidding procedure set by ISDA, to establish the value of certain eligible obligations of the reference entity which may include bonds, loans and guarantees. The outcome of any auction is likely to reflect the prevailing price of the cheapest relevant obligations of the relevant Reference Entity.

However, if a fallback settlement event occurs in respect of the Notes (meaning, at a high level, it is not possible to obtain the relevant price via auction), the Notes shall be cash settled. The Notes will be redeemed on the cash settlement date (being three business days after the date on which the calculation agent determines the final price of a selected reference obligation of the Reference Entity). On the cash settlement date, a Noteholder will receive per Note an amount equal to such Note's pro rata share of the greater of (A) zero; and (B) (i) the product of (1) the aggregate principal amount outstanding of Notes; *multiplied by* (2) the final price of the relevant reference obligation of the defaulted Reference Entity; *minus* (ii) unwind costs.

Following a credit event, the auction final price or final price is very likely to be less than 100% and therefore, together with the deduction of unwind costs, a Noteholder is likely to suffer a loss of a substantial portion, and possibly all, of their investment. Note that as a "first-to-default" product, the entire principal amount of the Notes is settled with reference to the value of the obligations of a single defaulted Reference Entity (the first Reference Entity in the basket to suffer a credit event). The existence of multiple Reference Entities amplifies the risk of a credit event occurring.

Final Redemption – Notes

On the day that is one business day following the Maturity Date, if no credit event has occurred in respect of any of the Reference Entities, a Noteholder will receive an amount per Note equal to the outstanding principal amount of such Note (together with the interest amount payable in respect of the final Interest Period). In certain circumstances, where the Calculation Agent determines that a credit event may have occurred prior to the maturity date, the maturity date of the Notes may be extended and redemption delayed in order to verify whether a credit event has in fact occurred. Interest will accrue during any such extended period except where such extension has been triggered by a request to ISDA to determine whether a credit event has occurred.

Restrictions on free transferability of the securities:

The Notes will be freely transferable, subject to the offering and selling restrictions in the Russian Federation, the Republic of Cyprus and under the Prospectus Regulation and the laws of any jurisdiction in which the relevant Notes are offered or sold.

Where will the securities be traded?

Application has been made for the Notes to be admitted to the official list (the "**Official List**") of Euronext Dublin and to trading on its regulated market (the "**Regulated Market of Euronext Dublin**").

What are the key risks that are specific to the Notes?

In addition to the risks relating to the Issuer (including default risk) that may affect the Issuer's ability to fulfil its obligations under the Notes, there are certain factors which are material for the purposes of assessing the market risks associated with Notes, including that: (i) the Notes are unsecured obligations;

(ii) the trading market for the Notes may be volatile and may be adversely impacted by many events; (iii) an active secondary market may never be established or may be illiquid and that this may adversely affect the value at which an investor may sell its Notes (investors may suffer a partial or total loss of the amount of their investment); (iv) exposure to the Reference Entities may be achieved by the Issuer entering into hedging arrangements, potential investors are therefore exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Notes; (v) the meetings of Noteholders provisions permit defined majorities to bind all Noteholders; and (vi) investors are exposed to the credit of more than one Reference Entity; and .

In certain circumstances Noteholders may lose the entire value of their investment.

KEY INFORMATION ON THE OFFER OF THE NOTES TO THE PUBLIC AND THE ADMISSION TO TRADING ON A REGULATED MARKET
